Much has been made about the planning for and execution of the aerial dimension of the 1991 Gulf War against Iraq. A major debate both within and outside of the US Air Force has been associated with the influence of Col John Warden. He was then a member of the Air Staff in the Pentagon and theoretically without an assigned function in theater-level

The pre-CTEM plan (i.e., the solution generated for the air superiority planning problem) contains two kinds of primitive actions—activities for each target selected for attack, and support missions for all activities not involving direct attacks on targets. The post-CTEM planning process takes as input groupings of these target activities into

There is also a hierarchy in the planning process—it begins with the theater commander-in-chief (CINC) who prepares a campaign plan for his area of responsibility and ends with the air component commander who oversees the air campaign. The air component commander's staff prepares the air tasking order—a script for operations—to give to the air units.
